

BE AT THE FOREFRONT OF LATAM'S ENERGY STORAGE MARKET

Brazil has one of the best solar resources in the world. A solar PV system in Brazil produces, on average, twice as much electricity as the same system installed in Germany or the United Kingdom. In Brazil, it's believed that 12GW of battery capacity will be needed for peak demand alone to meet wind and solar supply – expected to grow from 13GW to 38GW by 2026 – with grid tied storage systems enabling the adoption of distributed renewable energy sources along the power system. To ideally combine renewable energy sources and energy storage, energy management systems are needed.

Join the ees Pavilion and step into the Brazilian renewable energy market!

ees South America as part of The smarter E South America – LATAM's innovation hub for the new energy world

The smarter E South America will take place from August 23–25, 2022 in São Paulo, bringing together the following events:

- ees South America – South America's hot spot for batteries & energy storage system
- Intersolar South America – South America's largest exhibition and conference for the solar industry
- Eletrotec+EM-Power South America – The exhibition for electrical infrastructure and energy management

Quick facts

Dates August 23–25, 2022
Hours 12:00pm–8:00pm
Venue Expo Center Norte
José Bernardo Pinto St., 333
Vila Guilherme, Zip code: 02055-000
São Paulo, SP Brazil

Your target group is waiting for you

More than 30,000 visitors are expected to attend. The 3 day event is attracting investors, utilities, installers, manufacturers and project developers from all over the world.

The Brazilian energy storage market gathers pace

The Brazilian power system is by far the largest in Latin America. Strong growth of the energy storage sector in the next years and decades is predicted.

All under one roof – The perfect match

3 events covering topics of the new energy world under the umbrella of The smarter E South America. Energy storage, solar energy and energy management belong together.

There is so much more...

Apply for the coveted ees AWARD, speak at the Innovation & Application stage and make contacts at the networking reception. ees South America is more than an exhibition.

Organizers

Co-Organizer

I EES PAVILION – MULTIPLY YOUR STORAGE BUSINESS OPPORTUNITIES

The participation at The smarter E South America via the ees Pavilion offers an excellent opportunity to enter the Brazilian energy storage market. The pavilion's complete package lets you concentrate on your business, while we facilitate the rest.

Cost savings through...

An all-inclusive and attractively designed package. See the complete list for fit out items.

Less preparation effort by...

- Technical/organizational support from our team – before, during and after the exhibition
- Reservation of shared floor space in a good location
- Conception of the presentation by an experienced planner
- Reduced coordination effort with the exhibition organizer

Plus...

- Landing page with all pavilion exhibitor logos
- ees banner in one newsletter with link to a special website section about electrical energy storage with all pavilion exhibitor logos
- Special press release with all pavilion exhibitors listed

Individual services

9 or 12 sqm booth within the pavilion including

- Green carpet
- Lighting (1 spotlight for each 3 sqm)
- 1 outlet 220 V/500 W
- White partition walls
- Name board
- 1 table, 3 chairs, 1 stool, 1 counter, 2 shelves
- Trash can
- Fire extinguisher
- Power supply point
- City hall taxes
- Cleaning fee (set-up/dismantling)
- Catalog entry with logo and description (Portuguese & English)
- 5 product groups in the exhibitor list free of charge
- Exhibitor passes
- 10% discount on Full Conference Passes – Intersolar/Elektrotec+EM-Power
- Entry vouchers for visitors: 27 for 9 sqm/36 for 12 sqm

➔ ALL THIS FOR JUST ONE GREAT PRICE!

9 sqm: €3,600
12 sqm: €4,500
